

Why you need to consider alternative protocols to PCoIP

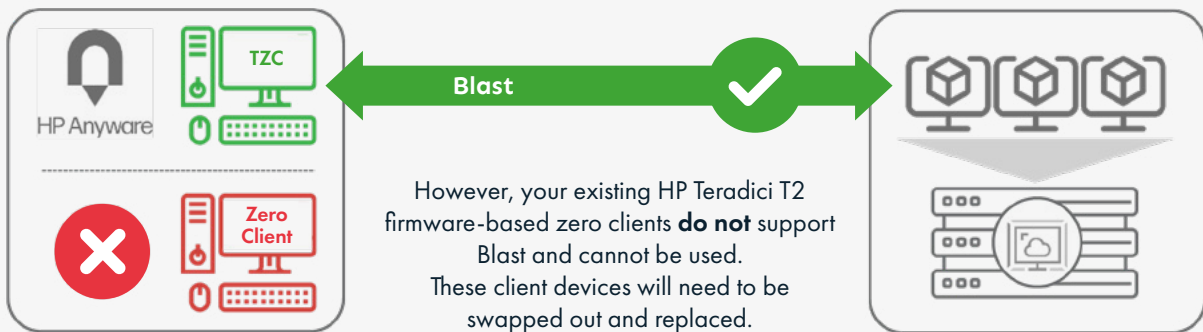

PCoIP will no longer be included with Omnissa Horizon

Omnissa (the new name for VMware EUC) have announced that at the end of 2025 they will no longer include the PCoIP protocol to deliver Horizon virtual applications and desktops in new Agent and Client versions.

Now is the time to plan your migration to Blast

To continue using Omnissa Horizon to deliver your virtual desktops and applications then you need to migrate your Horizon infrastructure to use Blast as the display protocol.

Replace **Zero** Clients with Amulet Hotkey **Trusted Zero** Clients

[Click the graphic for more information](#)

Designed for the HP Anyware Trusted Zero Client solution, the Amulet Hotkey AMD-based DXZ130 and DXZ160R Trusted Zero Clients provide the perfect client device for replacing Teradici T2 zero clients. Future proof and secure your client estate with flexibility and adaptability.
